RE: Direct food contact with series BB, BB-C, BB-V, DS, LC, PB, RET, RT, S2B, SB, SC, SN, WB trays as manufactured by WRH Industries.

Dear Customers and Users of WRH Products,

Specifications for “food grade” product and legal basis for its use in food applications are established in an FDA Regulation, namely: FDA 21 CFR 177.1520, 177.2400, 177.1550 and 177.2600; and an EU Regulation, namely: EC Regulation Number 1935/2004, Commission Directive 2002/72/EC as amended by Commission Directive 2007/19/EC.

The above named products clearly meet all of the specifications and requirements stipulated in the applicable sections of these regulations. Therefore, we can assure you that the use of these products as food contact surface will in no way constitute a violation of the Food Additive Amendment (US) or the Food Safety Act (EC). This assurance, of course, is predicated on the assumption that the chemical composition of the products will not be altered by the addition of other substances, and that the food contact surfaces will not be re-fabricated or modified.

Furthermore, these products are made from NSF-listed and CE-compliant designs and comply with the international regulations D.M. 104 of 21/03/1973 (Italy), Arrêtè of 25/11/1992 (France), and BgW, B.II.XV (Germany) concerning food contact.

Most sincerely,

A handwritten signature in blue ink, appearing to read 'P. Bartley', is positioned above the typed name.

Paul Bartley
